### Site:

Site 1	USA Health Mitchell Cancer Institute (MCI)
Site 2	USA Health Children's and Women's Hospital (CW)
Site 3	USA Health University Hospital (UH)

### Rotations:

Research	Fellows will report to the Gyn oncology lab at MCI for daily participation in all aspects of ongoing translational research projects. 3 hours a week during outpatient rotation.
Gynecologic Oncology (Gyn Onc)	Fellows will alternate between one week inpatient (which includes rounds, surgeries, and consultations at both CW and UH) and one week outpatient seeing patients in faculty clinics at MCI. Both experiences will include protected didactic time on Friday morning and fellows' continuity clinic Friday afternoon at MCI.
Radiation Oncology (Rad Onc)	Fellows will spend 2 weeks on the outpatient radiation oncology service at MCI including patient visits, consultations, simulation, radiation treatment planning and brachytherapy insertion.

**VACATION:** Fellows are allowed four weeks of vacation throughout year.

**NOTE:** Each block is 4 weeks in duration.

Palliative care	Fellows will spend 2 weeks on the palliative care service including both outpatient clinic at MCI and inpatient rounds/consultations at UH and CW.
