Academic Program Assessment Rubric

This rubric is used to access academic programs and their compliance with the Office of Institutional Effectiveness assessment reporting expectations.

The definition of compliance is cumulative in that reports must meet the minimal expectations of reporting 3-5 Student Learning Outcomes (SLOs).

Category	Expectation	Not compliant 0 pts	Compliant 1 pt
Student Learning Outcomes	Reports must meet the minimal expectations of reporting 3-5 SLOs.	Less than 3 SLOs have been identified for the program	3-5 SLOs have been identified
Assessment Methods	Each SLO must have at least one direct method.	Assessment methods have not been identified for each SLO Or, if not compliant with SLOs	Assessment methods have been identified for each SLO
Criteria	Is there an expectation of success identified for all assessment methods?	Criterion has not been identified for each SLO.	Criterion has been identified for each SLO.
Results	Does each assessment method have a result reported?	Results have not been reported for each assessment method. Or, if not compliant with SLOs Or, if not compliant with Assessment methods	Results have been reported for all assessment methods.

Category	Expectation	Not compliant 0 pts	Compliant 1 pt
Analysis of Results	Is there a use of results reported for each result?	An analysis of results is not reported for each result Or, if not compliant with SLOs Or, if not compliant with Assessment Methods Or, if not compliant with the Results	An analysis of results is reported for each result.
Actions	A specific step, measure, or strategy that is taken based on the results or findings; i.e., revise curriculum, revise criteria/benchmark	No action is reported at the end of each assessment period.	Action is reported at the end of each assessment period.
