# Call for Abstracts

University of South Alabama Department of Neurology
12th Annual Neuroscience Symposium

April 23 – 25, 2027

Perdido Beach Resort
Orange Beach, Alabama

Submission Link:
https://tinyurl.com/USANeuro2027

**Abstract Types:**
- All types of abstracts are allowed, including but not limited to case reports, case series, clinical trials, quality improvement projects, epidemiology, and basic science research
- Projects do not require prior completion or publication. Work in progress is acceptable and encouraged
- Everybody is welcome to present

**Key Dates:**
- Submission deadline: March 1, 2027
- Accepted abstracts will receive email notification.

**Presentation Types:**
- Both oral and poster presentations will be offered. Please check if you would like to be considered for an oral presentation during abstract submission.
- Top presentations for both will receive awards.

**Cost:**
- Abstract submission is free
- Conference registration fees are waived for all abstract presenters

## Symposium Programming (CME Credit Pending Approval)

Full Schedule To Follow
https://tinyurl.com/USANeuroSymposium

| Area | Talk Title |
|---|---|
| Dementia | The Rapidly Evolving Landscape of AD Biomarkers and Therapeutics |
| Dementia | How Do We Meet the Demand? The Growing Clinical Burden of Patients with Alzheimer's Disease |
| Epilepsy | Seizure, Syncope, or Something Else? Sorting Out Transient Loss of Consciousness |
| Headache | Migraine Pearls for the Busy Clinician: Getting Acute and Preventive Treatment Right |
| Movement Disorders | Seeing Is Believing: A Video-Based Approach to Functional Movement Disorders |
| Movement Disorders | Smoothing Motor Fluctuations: Continuous Dopaminergic Delivery for Parkinson Disease |
| Neuroimmunology | Don't Miss It: Early Recognition of Autoimmune Encephalitis Through Cases |
| Neuroimmunology | Is It Really MS? Avoiding Misdiagnosis of Multiple Sclerosis |
| Neuromuscular | The Expanding Immunotherapy Toolbox for Neuromuscular Medicine |
| Neuromuscular | Weakness Without Pain: A Stepwise Approach to Localization and Diagnosis |
| Neuro-ophthalmology / Headache | When Vision Is at Risk: Acute Management of Idiopathic Intracranial Hypertension |
| Neuro-rehabilitation | After the Diagnosis: Vestibular Rehabilitation for BPPV, Vestibular Hypofunction, and Vestibular Migraine |
| Pediatric Neurology | Measles Is Back: Recognizing Measles Encephalitis and SSPE |
| Sleep / Neurosurgery | Beyond CPAP: Upper Airway Stimulation for Obstructive Sleep Apnea |
| Stroke | Preventing the Next Stroke: An Update on New and Emerging Therapies |
| Vestibular Neurology | Acute Vestibular Syndrome: HINTS to Detect Central vs. Peripheral Vertigo |
| Vestibular Neurology | Dizzying Diagnoses: Review of Common Vestibular Disorders |
| Workshop | Localize the Lesion: An Interactive Neuro Case Challenge |
